Forward-looking statements

This communication contains or incorporates by reference statements that relate to future events and expectations and, as such, constitute forward-looking statements that involve risk and uncertainties. All statements that reflect Solventum’s expectations, assumptions or projections about the future, other than statements of historical fact, are forward-looking statements, including, without limitation, forecasts relating to discussions of future operations and financial performance and statements regarding Solventum’s strategy for growth. Forward-looking statements include those containing such words as “anticipates,” “believes,” “can,” “continue,” “could,” “estimates,” “expects,” “forecasts,” “goal,” “guidance,” “intends,” “may,” “outlook,” “plans,” “potential,” “predicts,” “projects,” “seeks,” “sees,” “should,” “targets,” “will,” “would,” or other words of similar meaning or by using future dates. Forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties and changes in circumstances. A further description of these factors is located under “Cautionary Note Regarding Forward-Looking Statements” and “Risk Factors” in Solventum’s periodic reports on file with the SEC, including its most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q and “Forward-Looking Statements” in our earnings release, which can be found on our investor relations website at investors.solventum.com. Solventum assumes no obligation to update or revise such statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

Non-GAAP financial measures

In addition to reporting financial results in accordance with U.S. GAAP, Solventum also provides non-GAAP measures that we use, and plan to continue using, when monitoring and evaluating operating performance and measuring cash available to invest in our business. The adjusted measures are not in accordance with, nor are they a substitute for GAAP measures. These non-GAAP financial measures are supplemental measures of our performance and our liquidity that we believe help investors understand our underlying business performance and Solventum uses these measures as an indication of the strength of Solventum and its ability to generate cash. Refer to the reconciliation schedules included in our earnings release dated August 5, 2026, which can be found on our investor relations website, for descriptions and reconciliations of financial measures. Solventum calculates forward-looking non-GAAP financial measures, including organic sales growth, adjusted gross margin, adjusted operating income, adjusted operating income margin, adjusted effective tax rate, adjusted earnings per share and free cash flow based on internal forecasts that omit certain amounts that would be included in GAAP financial measures. Solventum does not provide reconciliations of these forward-looking non-GAAP financial measures to the respective GAAP metrics as it is unable to predict with reasonable certainty and without unreasonable effort certain items such as the impact of changes in currency exchange rates, impacts associated with business acquisitions or divestitures and the timing and magnitude of restructuring activities, among other items. The timing and amounts of these items are uncertain and could have a material impact on Solventum’s results in accordance with GAAP.

The Q2 2026 financial statements and financial information, including reconciliations of non-GAAP financial measures, are available on Solventum’s website: investors.solventum.com.
